

S. Lake Tahoe wants help with design guidelines

South Lake Tahoe is looking for input as it prepares design guidelines to complement the adopted design standards.

An online survey is available now through Jan. 29. The survey includes character images that will be used to help understand the community's vision for South Lake Tahoe's aesthetic quality.

The next public meeting will be Feb. 17th from 5-7pm at Lake Tahoe Airport to review the draft design guidelines.
