EIR out for housing development in Olympic Valley

Comments are being sought on the draft environmental impact report for the Palisades at Squaw residential housing project in Olympic Valley.

Currently zoned for high-density residential development, the proposed undeveloped 19.9-acre project site could include up to 63 residential lots consisting of 33 lots for single-family homes and 30 lots for half-plex units, a 100-foot-wide open space easement along the site's northeastern boundary, a private park, a multipurpose trail easement and right-of-way for utilities and roadways.

Comments will be taken until Nov. 4. The Placer County Planning Commission will have a public hearing on the project Oct. 27 at 10am at the North Tahoe Event Center in Kings Beach. More info about the project is **online**.

The project does not require approval from the Placer County Board of Supervisors.
