I-80 work to cause delays in Truckee

Two on-ramps and one exit ramp to and from westbound Interstate 80 in Truckee will be closed May 23-25, from 7am-5pm.

Caltrans will perform concrete grinding work on the ramps as well as freeway lanes. The on-ramps to westbound I-80 to be closed are from Highway 89 just north of the freeway, as well as the ramp from Donner Pass Road near the Coachland round-about. The off-ramp to be closed is the Central Truckee exit (No. 186) to Donner Pass Road.

The repair work will also require alternating lane closures of three lanes on westbound I-80 between the Highway 89 interchange and the Central Truckee exit.

Expect local street congestion as well as delays on westbound I-80.
