Liberty Utilities promoting solar to customers

Liberty Utilities will host a free solar for homeowners and small businesses workshop on Dec. 19 in South Lake Tahoe.

Officials will provide information on solar energy as well as the company’s solar incentive program.

It will be from 6:30-7:30pm in the library on Rufus Allen Boulevard.

Utility representatives will be available to discuss various aspects of installing and using solar energy for residential and small business facilities. Anyone may attend, but only Liberty Utilities customers are eligible to apply for the program, which provides cash incentives to offset the cost of installing solar panels. Schools within Liberty’s service territory are also eligible.
